

SCORE[®]

Workshop

Wednesday, June 11th, 2008 8:45 am - 12:30 pm

Cost Effective Computing For Small Business

Tips and Tricks to save big while meeting all of your computing needs.

This class will focus on finding quality Free and Open Source Software for everything from desktop PCs to servers.

How to breathe new life into older hardware.

Plus an insiders guide to finding the very best for free or low-cost.

Presented by Karlie Robinson - SCORE Counselor, and owner of Webpath Technologies

The Workshop will be held in the Lower Level Conference Room 0340 of the Federal Building at 100 State St. in Rochester, NY. Questions? Call (585) 263-6473. No refunds for cancellations made any later than Monday noon of the week of the seminar. **No refunds for NO-SHOWS.**

Please enroll me in the seminar entitled **Cost Effective Computing For Small Business** to be held on Wednesday, June 11th, 2008. I enclose a check, or money order, for \$25.00* (includes continental breakfast) made out to: **SCORE.**

Name _____
